WHO WE ARE?

KBS INTERNATIONAL

We believe that everyone should have access to high-security locks. No more worrying about thieves breaking into your home or office—just use our products and let us take care of the rest!

Our handles are made from stainless steel, so they'll last for years and years, even with rough handling. They're easy to install, too: just mount them on your door or handle, and you're good to go. Our stainless steel products are highly resistant to corrosion, rust, and wear and tear, which means they're perfect for high-traffic areas or areas where the elements could take a toll on other materials.

Our ultimate goal is to provide our customers with the peace of mind that comes with knowing that their properties are secure and protected with our premium stainless steel locks and hardware. We are dedicated to making the world a safer place, one lock and hardware solution at a time.
